

Philip Jordan

PhD Student in Computer Science, EPFL

 [Email](#)  [Publications](#)  [Website](#)

EDUCATION

- SINCE 2024 | **Ph.D. in Computer Science**, École Polytechnique Fédérale de Lausanne (EPFL), CH.
Advisor: Prof. Maryam Kamgarpour.
- 2021-2023 | **M.Sc. in Computer Science**, ETH Zürich, CH.
Theoretical Computer Science (major), Machine Learning (minor).
Graduated with distinction (GPA 5.77/6.0).
- 2017-2021 | **B.Sc. in Computer Science**, ETH Zürich, CH.
Exchange semester at Princeton University, USA.

PUBLICATIONS

- ICML'26 | “Nash Equilibria in Games with Playerwise Concave Coupling Constraints: Existence and Computation”.
Philip Jordan, Maryam Kamgarpour.
Selected for oral presentation (top 0.7% of submissions).
- submitted | “Independent Learning of Nash Equilibria in Partially Observable Markov Potential Games with Decoupled Dynamics”.
Philip Jordan, Maryam Kamgarpour.
- submitted | “Model-Based Learning of Near-Optimal Finite-Window Policies in POMDPs”.
Philip Jordan, Maryam Kamgarpour.
- AISTATS'24 | “Independent Learning in Constrained Markov Potential Games”.
Philip Jordan, Anas Barakat, Niao He.
- AAMAS'24 | “Decentralized Federated Policy Gradient with Byzantine Fault-Tolerance and Provably Fast Convergence”.
Philip Jordan, Florian Grötschla, Flint Xiaofeng Fan, Roger Wattenhofer.

TEACHING

- 2025-2026 | *Multiagent Decision-Making and Control*, Teaching Assistant, **EPFL**.
- 2025 | *Foundations of Artificial Intelligence*, Teaching Assistant, **EPFL**.
- 2018-2020 | *Discrete Mathematics*, Teaching Assistant, **ETH Zürich**.

INDUSTRY EXPERIENCE

- 2022 | Co-founded Swiss company *OpenSwap Technologies AG*, leading responsibility for design, implementation, and audit of smart contracts powering a decentralized finance platform, total trading volume > 1 billion US\$.

STUDENT COMPETITIONS

- 2016-2017 | Finalist (top 1%) in the 35th and 34th *National German Computer Science Competitions*.
